

## *Jo Heckett Wedding Gifts and Favours*

At Jo Heckett Ceramics we make beautiful porcelain favours, commemorative gifts and keepsakes. We believe every wedding is special and aim to match our favours to your vision.

Porcelain has long been prized for its preciousness and luminous quality. Our colours are carefully developed to complement your scheme & to bring out the natural beauty of the clay. We make everything by hand in our London studio, and attention to detail and finish ensure your favours will shine on the day.

Whether you would like a talking point for a wedding your guests will always remember, or a subtle finishing touch to thank your guests for sharing your day, we can adapt our gifts and favours to suit you.

We specialise in magnets, pegs and decorations, which can be presented in lovely hand-stamped boxes, biodegradable cellophane bags or can be tied or pegged onto place settings.

For an extra special touch we can personalise most of our products, and go as swish as you wish, with gold, pearl and platinum versions for the bride who wants that extra glow.

Whether it's off the peg or fully bespoke we will assist you throughout the process. Our small, skilled and dedicated team have years of experience to draw upon, so if you are stuck for ideas, allow us to take the strain and plan the perfect gifts for you or your guests.

You can come to studio for an appointment, or email or phone us to order, or for advice, assistance and ideas.

And for the hands-on bride you can even come to our studio and make your own, with our expert guidance to help you!
